SOURCE: Internal analysis of tech startups founded after 01/01/00 that have achieved a liquidity event through IPO, direct listing, SPAC merger, acquisition, or other realized exit. Public companies valued using current market capitalization as of 07/09/26; acquired companies valued using publicly reported transaction values. Excludes private companies, China-based companies, and most biotechnology, life sciences, and medical device companies. Rankings are based on publicly available data and are for informational purposes only.
